

Volunteers Needed! Jones Fork Restoration

Tuesday, October 27th

The Center for Sierra Nevada Conservation and volunteers will be decommissioning and restoring an unauthorized vehicle route that is directly impacting the Jone's Fork of Silver Creek in the Crystal Basin area of the Eldorado National Forest.

We will be covering tracks with on-site mulch and leaf litter and placing woody debris to prevent the conveyance of soil from the hillside into the stream. We will also be doing a little trash removal from a makeshift creekside campsite.

If you are driving from South or West of Placerville, we will meet in the Placerville Raley's parking lot at 9 a.m. to drive up Highway 50 to Ice House Road. Those leaving from the Georgetown area will be meeting at the Georgetown Library at 9 a.m. and heading up Wentworth Springs Road. We will be back to the Placerville Raley's and the Georgetown Library before 5 p.m..

This is a beautiful spot, but a little chilly in the morning this time of year so dress warmly! Snacks and drinks will be provided. Bring a lunch, a water bottle, sturdy shoes or boots, gloves, sun protection, a jacket and anything you might want

Thanks so much to those who triumphantly returned a beautiful hillside to tranquility last week on the Georgetown district. You guys made it look easy! Thank you for your time, your effort, and your smiles.

for a day in the forest. For more information, a map, or to coordinate travel plans please email matt@sierranevadaconservation.org or call Matt at [530.588.3378](tel:530.588.3378). See you Tuesday!
